Sir:

Applicants submit the following remarks to complete the record of the present application. The U.S. Patent and Trademark Office issued an Official Action on December 28, 2004, which purportedly was directed to the claims of the present application. However, the rejections in the Official Action were not directed to the subject matter of the claims of the present application. Accordingly, Applicants' representative, Joshua M. Povsner, contacted the Examiner by telephone on January 7, 2005, and confirmed that the Official Action was directed to the claims of another application and not to the claims of the present application. The Examiner confirmed that a new Official Action would be issued for the present application, and that no response to the Official

Action of December 28, 2004 was necessary because the Official Action of December 28, 2004 was associated with the present application in error.

A new Official Action was issued on March 8, 2005, and was directed to the claims of the present application. Further, a review of the Patent Application Information Retrieval system of the U.S. Patent and Trademark Office shows that there is no record of the misdirected and mislabeled Official Action dated December 28, 2004.

Applicants are submitting the present remarks merely to complete the record of the present application.

Should there be any questions or comments regarding this Response, or the present application, the Examiner is invited to contact the undersigned at the below-listed number.
